### ALL CHILD IS ROWNED IN TUB OF WATER

BY STRUCK HARRIS  
THE SECOND TIME  
WITHIN MONTHS

By struck for the second time the home of Mr. and Mrs. Harris on south Locust street late Monday afternoon, the driver found his path blocked by an automobile parked on the south side of Walnut street in front of the post office. The unattended vehicle had to be pushed out of the way before the truck could proceed.

Many local motorists have been guilty of parking on the left side of this one-way street under a City Ordinance in the sum of 50 cents. However, in the future, violators will be in line for a much heavier fine in city court on a charge of violating the Indiana Motor Vehicle Act if this practice is continued.

In other words, the police department asks you to watch your parking!

### WATCH YOUR PARKING

When the city fire truck, carrying a resuscitator and a crew of trained first aid men from the Public Service Company, started in answer to an emergency call on south Locust street late Monday afternoon, the driver found his path blocked by an automobile parked on the south side of Walnut street in front of the post office. The unattended vehicle had to be pushed out of the way before the truck could proceed.

Many local motorists have been guilty of parking on the left side of this one-way street under a City Ordinance in the sum of 50 cents. However, in the future, violators will be in line for a much heavier fine in city court on a charge of violating the Indiana Motor Vehicle Act if this practice is continued.

### LEGION WILL SPEND \$20,000 ON REMODELING

BUILDING BOOM WILL CONTINUE HERE; OTHERS GET PERMITS

A continuation of the building boom in Greencastle was again in evidence Monday evening during the meeting of the city council.

Heading the list of building petitions was that of the Cassell C. Tucker Post 58 American Legion to remodel basement of the home on east Walnut street at an estimated cost of \$20,000.

Other permits included James Carly, erection of house on Lot No. 2, Hillsdale Avenue, estimated cost \$5,000; Presbyterian church to re-roof building, \$3,500; Jesse Ford to remodel business rooms at 25-27 west Franklin street, \$1,200; J. C. Penney store, install stoker and cement coal bin, \$1,000; and Wayne Nelson to tap sanitary sewer at 910 Lincoln Avenue.

The claim ordinance totaling \$1,135.39 was introduced by Councilman Herbert Craver and passed by a unanimous vote.

Harry Allan appeared before the council asking permission to grade the old sidewalk site, just east of the new Church of Christ, corner of Washington and Arlington streets. Mr. Allan said the church would grade the ground to the level of Arlington street and put on shale. This will make a parking place for the congregation and not congest traffic on Arlington street. The council gave him permission to do this work.

In the absence of Mary Jane Black, Councilman Ward Maynard acted as clerk-treasurer during Monday's session.

### Monon Queen To Receive Letter

The city council went on record Monday night in expressing appreciation for the splendid manner in which Miss Norma Jean Peabody represented Greencastle in the Monon railroad's centennial celebration recently.

Miss Peabody, daughter of Mr. and Mrs. Norman Peabody and a student in DePauw University, was selected by the Chamber of Commerce to be "Miss Greencastle" during the Monon's 100th birthday observance. She was a passenger on the train that carried the Monon "Queens" from other cities along the route from Hammond to New Albany.

She was complimented highly by Joann Barriger, president of the Monon and other officials.

Mayor Walter Ballard directed that a letter of appreciation be sent to Miss Peabody and signed by the council members.

### 49TH STONER REUNION TO BE HELD SUNDAY

The 49th annual Stoner reunion will be held Sunday, Aug. 10th at the home of Mr. and Mrs. Oscar O'Hair near Brick Chapel.

### BOARD NAMES POELLEIN TO VETS' OFFICE

SUCCEEDS DON MEEKS AS  
PUTNAM COUNTY SER-  
VICE OFFICER

Robert J. Poellein, a Navy veteran of World War II, was appointed new Veterans' Service Officer for Putnam county on Monday afternoon by the Board of Commissioners. Mr. Poellein succeeds Don Meeks, who resigned recently to go into private business in Texas.

A total of 11 applicants were considered for the office.

After some discussion, Commissioner Fred Hunter moved the appointment of Mr. Poellein. This motion was seconded by Commissioner Clarence Goff. The appointment was also favorable to Commissioner Ross Torr which made the action of the board unanimous.

Mr. Poellein, who is a licensed undertaker, served over three years in the Navy in the Pacific theater. He is married and resides on west Columbia street.

According to the Commissioners, Mr. Poellein will take over the duties of service officer immediately.

### COUNTY BOARD'S HANDS TIED ON ROAD EXTENSION

Although there has been considerable agitation for the extension of road 136 west from 443 to the Parke county line, the hands of the Putnam county commissioners are tied for several reasons. The county's share of the money, \$12,254, appropriated for this work, also is marking time in the office of the county auditor.

In the first place, the state highway commission has not drawn up plans for extending the road west from 43 through Russell township to Parke county. The proposed route, in the survey which has been made, puts the road just south of Russellville on its westward trek across Russell township.

Due to the fact that the road, when drawn by the state, must receive Federal aid, the plans, when drawn by the state, must have the approval of the Federal Works Administration.

And, before the state can enter into a contract with the county commissioners, this Federal approval must be forwarded to the highway commission.

In this connection also, the Putnam commissioners report that land grants for the road right-of-way have not been approved by state highway engineers, although this action was promised a month ago.

Consequently, the commissioners can do nothing more toward making the proposed extension a reality until the state highway and the FWA get busy.

### Boys Will See Baseball Game

Arrangements have been made by T. A. Kleckner, superintendent of schools, and Tom Goldsberry, recreational director, to take all boys of Junior High and High School age who have participated in the summer recreational program to see the Indianapolis Indians play on Thursday night, Aug. 14.

It is to include all boys from Greencastle who have participated in softball leagues, summer basketball or any part of the park recreational program.

All boys who are interested are to get in touch with Mr. Goldsberry before Tuesday, Aug. 12. Any boys below Junior High School age who are interested should also see Mr. Goldsberry as arrangements might be made to include them.

Transportation will be made in school buses.

O. E. S. NOTICE  
Greencastle Chapter No. 255 O. E. S. will meet in stated meeting, Wednesday evening, August 6th at 8:00 o'clock P. M.

### COMPLETING 4-H RECORDS FOR STATE FAIR

Left to right, Miss Leona Denny, Cloverdale; Miss Lucile Smith, Home Demonstration agent; Miss Betty Fordice, Russellville; Miss Elsie Alice McKeehan, assistant Home Demonstration agent; and Miss Barbara Leonard, Russellville, looking over their completed 4-H records before their state fair competition which is but a few days off.

Three Putnam county girls who have been 4-H club members and leaders for seven or more years are the lucky winners of all-expense trips to the Girl's State Fair School held in conjunction with the Indiana State Fair, August 29 to Sept. 6, announced Lucille Smith, home agent, and Elsie Alice McKeehan, 4-H club agent.

The proud recipients of these trips are Leona Denny, Cloverdale, Betty Jane Fordice, Russellville, and Barbara Ann Leonard, Russellville. Leona and Betty, now completing their seventh year of 4-H club work, and Barbara, her eighth, have made enviable records in their local townships and have won many county and district honors for Putnam County.

Leona, daughter of Mrs. Emma Banta of Cloverdale, during her seven years in club work has carried seventeen projects, including baking, canning, clothing, forestry, garden, and rabbit. She has been a junior leader for two years, has given a local demonstration each of her seven years and has won local, county, and district judging honors. Leona also set up the local junior canning classes for Cloverdale's judging. Exhibiting in the canning division at the Indiana State Fair in 1946, attending 4-H club camp for two years, 1946 winner of a trip to 4-H roundup at Purdue University, and 1947 winner of a trip to district junior leader conference, in addition to the many offices she has held locally are also numbered among the activities and honors previously bestowed upon Leona. Leona says, "I'm as proud as punch to represent Putnam County."

### Judging Starts At County Fair

Judging started Tuesday morning on the livestock at the annual Putnam County fair despite the torrid heat which made it dangerous for livestock and some which were brought in Monday during the day, need attention and handlers worked with them until late in the evening as the mercury stood near the 100 degree mark as late as six o'clock.

For the second straight day, Greencastle and Putnam county citizens sweltered in an August heat wave that sent the temperature to 100 degrees at 6 p. m. Monday. The mercury had soared to the 100 mark at 4 p. m. Sunday, and there was every indication Tuesday morning that the temperature would reach or even pass the century level for the third consecutive day.

At 4 p. m., Monday, The Daily Banner thermometer recorded 98 and two hours later it was 100. During the night, the mercury slipped slowly downward to a minimum of 72, but at 9 a. m. it was 85 and on its way up again.

#### Score Killed In Texas Wreck

WAXAHACHIE, Tex., Aug. 5.—(INS)—Between 15 and 20 persons were reported killed in a collision of a gasoline truck and the vehicle transporting the laborers to Dallas today.

Fire followed the collision which occurred several miles north of Waxahachie.

At Dallas, Tex., Capt. George Besby of the Dallas department of the state highway patrol said 21 persons were killed or injured. One, unconfirmed, report was that 14 bodies had been taken from the wreckage and five more were in the debris.

LONDON, Aug. 5.—(INS)—Reuters reported from Athens today that the British charge d'affaires officially informed the Greek government of Britain's decision to withdraw its forces from Greece at an unspecified date.

PARIS, Aug. 5.—(INS)—Two major conclusions were revealed today to be emerging from the high-level American diplomatic conference underway in Paris, and both concern future policies toward Germany.

An authoritative spokesman said that these conclusions are being reached:

That the United States government will have to undertake an immediate and future share in the dollar cost of occupying the British zone of Germany.

That strong pressure must be brought to bear on the French government to acquiesce to an increased level of industry in Germany.

WASHINGTON, Aug. 5.—(INS)—Elliott Roosevelt, son of the wartime President, today angrily defended his wife, movie actress Faye Emerson, and nearly came to blows with John H. Meyer, Howard Hughes, party-throwing press agent.

### PROPOSED '48 TAX LEVY FOR CITY IS \$2.10 1/2

COUNCILMEN SWEAT OVER  
NEXT YEAR'S BUDGET  
MONDAY NIGHT

Greencastle's city councilmen "sweated" literally and figuratively over the proposed 1948 budget Monday night for more than two hours in near 100-degree heat of the council chambers at the city hall.

When the session was completed, it was announced that the city tax rate for next year will be approximately \$2.10 1/2, which is an increase of 64 1/2 cents over the current levy of \$1.46. Practically all of the increase is in the general fund to take care of salary increases in the various municipal departments, including the hiring of two additional policemen.

As it now stands, the 1948 budget calls for the following:

General Fund	\$1.96
Park	.09
Bonds	.02 1/2
Airport	.03
Total	\$2.10 1/2

Among the items included in the proposed general fund for next year are the wage hikes for the police and firemen; \$6,000 for permanent sewer plans; the mayor's salary of \$1,700 (as set by law); park superintendent, \$1,656; clerk-treasurer, \$1,500 (set by law) and \$900 for yearly pay of five councilmen or \$180 annually for each member.

Before taking up the budget, it was necessary for the council to consider and pass the new salary ordinance so that the figures could be included in the new budget. The salary of the police chief and fire chief for next year was set at \$250 per month. Four patrolmen and three firemen will receive \$200 monthly. The sum of \$205 was agreed upon as the pay per month for the assistant police chief and assistant fire chief and \$205 for the night police captain. Pay for extra police officers and extra firemen will be \$6 per day.

The salary of the street commissioner will be \$212.75 and two regular street men, \$178.25 per month. The salary of the city health officer is \$200 per month; city attorney, \$700 annually; and municipal court judge, \$600.

The salary of the garbage collector was fixed at \$178.25 and \$140 per month for a second man who will pick up tin cans and other trash.

## Cigarette Tax Revenue Large

INDIANAPOLIS, Aug. 12.—(INS)—Revenue totaling more than two million dollars went into the state coffers as a result of the first month's operation of the new cigarette tax law.

The Indiana Alcoholic Beverage Commission, the agency charged with enforcing the cigarette tax, reported today that 212 wholesale dealers had paid \$106,000 for certificates of registration, while receipts for stamps and meter readings for July amounted to \$1,902,938.23.

The state excise police reported that several violations of the new law, which went into effect July 1, have resulted in arrest and conviction in civil courts. Violators paid fines on charges of possessing or offering for sale cigarettes without tax stamps.

According to the excise police, cigarette vending machine operators, who were given a "few days of grace" to clear their machines of untaxed packages, the committing most of the violations. They warned that whenever a vending machine was found to have been refilled after July 1 with untaxed cigarettes, the spikes would be confiscated.

Upon second offense, the excise officers will remove the vending machine also, and will begin civil court proceedings, the ABC warned.

Meter machines for stamping the packages have been installed by most of the 212 wholesalers, who represent 177 Indiana dealers and 35 from other states.

## State Motorists Pay In Big Sum

INDIANAPOLIS, Ind. Aug. 5.—(INS)—Indiana motorists paid the state \$15,445,334.47 during the first six months of 1947.

The money, revenues from the four cent state gasoline tax, represents more than an 11 per cent increase over the first half of 1946 according to Leland K. Fishback, executive secretary of the Indiana Petroleum Industries committee, who made the announcement.

A new high in the 25 year history of gasoline tax collections in Indiana, Fishback predicted that the total 1947 tax bill will reach more than 32 million. He added:

"In terms of highway construction, this means that motorists will pour 46 million in state gasoline taxes and registration fees into the highway fund this year. In addition to this tremendous amount must be added the many millions in unspent state highway fund balances, plus the \$12,000,000 allotted Indiana annually for three years under the provisions of the Federal-Aid highway act."

Fishback pointed out that during June and July, 1947, two other all time records were set with net gasoline tax collections for June, hitting \$3,138,824.83 and \$3,197,954.23 in July.

## Labor Unions Still Liable

WASHINGTON, Aug. 5.—Labor unions to by-pass the Taft-Hartley law by making contracts calculated to shield them from damage suits for illegal strikes—as at Ford in Detroit—will find that they are still liable, according to law authorities in the National Labor Relations Board.

These lawyers, who are boning up on the new act for Aug. 22, when it becomes fully effective, say that even an employer who signs a no damage-suit contract still can sue the union for an illegal strike, on the general theory that a contract between private parties cannot supersede a federal law.

They point out that such a suit would depend on the attitude of the employer—whether he would want to reclaim legal rights he had been induced to give up in signing the union contract.

Still more sweeping, the NLRB authorities say, are provisions in the new law that give parties other than the employer of the union the right to sue for damages they may suffer through the types of strikes the statute makes illegal. These "outside" parties may sue either the union or the employer.

nam county at Girls' State Fair School.

Betty, daughter of Mr. and Mrs. Rudolph Fordice of Russellville, also a seven-year member has thirty-three different projects to make a creditable record including baking, canning, clothing, entomology, food preparation, forestry, victory club, and handicraft. One year as an assistant junior leader and two years as a junior leader at Russellville have given Betty a broad background of 4-H club work.

Other 4-H activities in which she participated include local demonstrations for eight years, county demonstrations for two years, local and county dress reviews, county and district judging, four years as a 4-H club camper, and a state fair exhibitor for the past two years. Betty attending 4-H round-up at Purdue in 1947 where she was entered in the insect identification contest; also, she was awarded trips to state and district junior leadership conference. As a junior superintendent at the Putnam county fair and having held all the offices at various times in her local club, Betty is another of Putnam county's outstanding 4-H club girls. "I'll do my best to live up to the honor Putnam county has given me," said Betty in commenting on her award.

Barbara, daughter of Mr. and Mrs. C. O. Leonard of Russellville, has twenty-three projects on her record including baking, canning, clothing, corn, food preparation, handicraft, poultry, and victory club. Local and county judging and local and county demonstrations in addition to her three years of junior leadership contributed to her award of a trip to 4-H round-up and district junior leadership conference. This year Barbara is the junior superintendent of the handicraft division at the Putnam county fair. Barbara's other 4-H activities during her eight years of club work include setting up clothing classes for local judging contests, local and county dress reviews, six years as a 4-H camper. State fair exhibitor in 1946 and various offices and Barbara replied, "I'm glad I can represent Putnam county for I know it will be a great week of education, fun and experience at the Indiana State Fair."

## Forced Back On Global Flight

CHICAGO, Aug. 5.—(UP)—Pilot William P. Odom, forced back on his first attempt to set a new solo record the world record, scheduled test flights for his converted A-26 bomber today before making a second try tomorrow.

Odom turned back yesterday about four hours out of Chicago. He was over the Bay of Fundy in Nova Scotia when he flipped his big "Bombshell" back westwards for the Chicago airport.

He blamed the failure of the first flight mainly on a defective aileron. A clamp holding the ailerons, which control the ship laterally, slipped and he was unable to control the ship properly.

"I came back because somebody forgot to put sugar in my tea," the 27-year-old pilot quipped as he stepped from the plane.

He took off at 2:32 p. m. (CDT) and landed at 11:55 p. m. (CDT).

Mechanics went to work on the airplane immediately.

Odom said he would test fly the ship today and then take off again tomorrow at 2 p. m. in a second attempt to fly around the globe in 90 hours—about half the time required by the late Wiley Post when he set the present record of 186 hours in 1933. The flight is the first round the world record hop to start from Chicago.

## Union Cancels Ford Walkout

DETROIT, Aug. 5.—(UP)—The CIO United Auto Workers today cancelled a strike of 103,000 Ford Motor Company production workers, set for noon (EST) when the union and company negotiators reached agreement on a UAW demand for exemption from the strike penalties of the Taft-Hartley labor law.

Richard T. Leonard, UAW vice president and chief negotiator, empowered to call the shortage, announced that the walkout was cancelled "subject to further negotiations with the company on remaining issues, mainly a disputed pension plan."

However, Leonard did not completely withdraw the strike threat.

The strike call had threatened to idle all of Ford's 46 plants throughout the country, but it was abandoned for the time being after nearly 19 hours of negotiations with company officials, headed by Ford Vice-President John S. Bugas.

Leonard said that "members will be notified as to the progress of these (further) negotiations," he said, "whether a strike may be eventually called hinges on the ability of the union and the company to reach an agreement on the remaining issues."

Agreement on the Taft-Hartley formula, revolving around a company proposal for a joint study committee to draft a contract clause. The company agreed not to file strike damage suits under the law during the study period.

The negotiators had been in almost continuous session since 9:30 a. m. yesterday. At one point last night it was believed that an agreement had been reached when John S. Bugas, vice president in charge of the firm's industrial relations, recessed the meeting to confer with President Henry Ford II, Executive Vice President Ernest R. Breech and General Counsel William Gossett.

However, Bugas' conference with Ford policy-makers resulted in some changes in an earlier proposal to side-step the anti-wildcat strike provisions of the labor law.

When the meeting was resumed, UAW Vice President Richard T. Leonard was reported to have told Bugas that the union did not wish to bargain further and demanded a definite answer regarding the earlier agreement.

A company spokesman said the suggested changes put the negotiators "farther apart than ever."

Previous to that negotiators were optimistic that the strike would be postponed.

"As far as the strike is concerned, that is up to my discretion," Leonard said a few minutes before the dinner recess. "I have not as yet called off the strike nor will I, but it may be postponed."

Although there were two issues in dispute—the "escape clause" and administration of the Ford pension plan—the union's demand for immunity from the Taft-Hartley penalty provisions was the major stumbling block.

The UAW sought the same

WASHINGTON, Aug. 5.—(UP)—Sen. William Langer, R., N. D., said today he plans to introduce legislation next session to bar members of Congress from free rides on planes or other forms of commercial transport.

Langer said his bill would not be aimed specifically at Congress but would be designed to broaden an existing law which prohibits railroads from issuing passes to any persons except employees and their dependents.

## Sick Man Goes Berserk; Kills Couple, Sister

PRINCETON, Ind., Aug. 5 — (UP)—A 46-year-old man recovering from a nervous break-

down went berserk early today and later admitted shooting to death a farm couple with which he lived and decapitating his 48-year-old sister with a butcher knife.

Roy Turpin, unemployed former dealer in used automobile parts, was held in Gibson county jail and an investigation was launched by Sheriff James McDonald and Coroner C. C. Cooper.

The victims were Mr. and Mrs. Charles Bateman, both 55, and

Turpin's sister, Miss Nora Turpin, 48.

Sheriff McDonald quoted Turpin as admitting he shot Mr. and Mrs. Bateman as they slept about 3:30 A. M. (CDT).

McDonald said his office received an urgent telephone call from a woman pleading for help but the call was cut short. Deputies hurried to the Bateman home two miles northeast of Princeton where Turpin was found mumbling incoherently. He willingly submitted to arrest.

the sheriff said.

McDonald said there was apparently no motive for the slayings.

He quoted Turpin as admitting in jail that he shot Mr. and Mrs. Bateman and threatened his sister. The frightened sister called the sheriff's office, he said, but he took the telephone from her in the middle of her call and cut her head off with a butcher knife he had obtained in the kitchen.

Before the war Turpin operated a Princeton used auto parts business and later bought a similar establishment in Denver.

At Denver he suffered a nervous breakdown, neighbors said, and returned to Princeton a few months ago. He and his sister moved into the house with Mr. and Mrs. Bateman.

Neighbors said Turpin often mumbled incoherently about "being cheated out of my business in Denver" but that neither they nor his sister were able to discover the facts behind the statement.

Miss Turpin broke her ankle in an accident six weeks ago and was wearing a cast on her leg at the time of her death.

Sheriff McDonald said the man would be held without charge pending outcome of an investigation this morning.

"public service" looks to the future

"Public service" means adequate electric service today . . . tomorrow . . . and years ahead. Our electric facilities are adequate for today's demands. But every indication points toward vastly increasing demands. So, we're preparing not only to meet these greater demands but to anticipate them far in advance and to be ready with a margin of safety.

## Getting Ready Today...for Tomorrow's Expansion

• A bright future for business in Indiana looms on the horizon. During the past two years, a steady stream of new industries has moved into the territory served by our electric lines. Exhaustive studies point to continuing industrial and community development during the next decade. One important index is the ever increasing demand for electric power. Right today more electricity is being used than during hectic war production days. Industrial Indiana is only beginning to hit its peacetime stride. And it's a healthy stride! It portends a busy future for industry and Hoosierdom in general.

What are we doing to meet the vast electric power demands coincident with this mounting wave of active growth? Briefly, we are engaged in a \$52,000,000 power

expansion program. Studies are completed, plans perfected, equipment ordered, and the money to finance it is in the process of being raised. The program includes new gigantic steam generators, more widely spread transmission lines, improved distribution facilities, and all the intricate mechanism needed to implement this tremendous job of construction and improvement.

★ ★ ★

It's a big step for us to take . . . and costly. \$52,000,000 is a lot of money . . . we must find investors willing to invest substantial amounts of new capital. A part of these funds is being raised under a financing plan now in progress, and additional amounts will be required as the construction work progresses.

**PUBLIC SERVICE COMPANY OF INDIANA, INC.**  
Electric Service to 622 Indiana Communities in 70 Counties in Indiana

• We have always kept ahead of the demand for electric power . . . and intend to maintain that record in the years ahead. Good electric service that is more than adequate . . . at low rates that are more than fair: that's our pledge to Indiana.
